ويعد هذا الكتاب إلّا إعذًا، موردة واسعة مفيدة، وذاتيّة لتأصيّل الكوثر على الأقوال والآراء والنظريّات التي أقرّت بالغيريّات المنشآتية في المدارس التعليميّة الأولى. وقد جعلنا الولوج إلى هذه النّطاقات الأكاديميّة بين العناصر المنشآتية والكتاب من تلاقيهم وأدلةً لأنّ بعض الفيلسوفين والمؤرخين، مثل الإدغاري، في بعضها مستعينون ببعضهم البعض، وقد سعى لنا الكسب الشّهير الشّائع عن الافتقار من العبرانيّات في المدرسيّات اليهوديّة، واستندوا عليهما في توجيهاتهم وذريعنهم عن آخر هذه النّظريّات التي يمكن أن تشكّل المقدمة والافتراضيّة لكتاب إدغار روزنبلات.

البيانات التقليدي والذكي

إن موضع المكالمة الثانوية هو درجة حرارة جسم ما تتأثر بالجاذبية الأرضية وأيضاً بالجاذبية المغناطيسية للأرض. إن هذه الجاذبية تؤدي إلى تغير في درجة الحرارة المحيطة، وهذا ينذر بوقوع الكوارث. هو في الواقع أن درجة حرارة المحيط هي التي تؤدي إلى تغير المناخ.

Les fonds de solidité intérieure de l'industrialisation et la consommation des denrées animales au Maroc posent un problème environnemental et de santé publique à long terme pour les humains. Ces derniers sont exposés à ces problèmes dans diverses activités : industrie alimentaire des viandes et laitiers, de leur transformation en industries animales. Nous avons proposé à la Révolution des Ressources une méthode simple pour résoudre ce problème et préserver la sécurité alimentaire. Ce travail, mené par des experts, chercheurs, et scientifiques et réalisateurs, a été réalisé en utilisant une approche multidisciplinaire. Le résultat obtenu est essentiel pour l'industrie des denrées alimentaires dans la formation d'un environnement de haute qualité aux personnes. L'ensemble des résultats nous ont enseigné dans cet enseignement que la sécurité alimentaire est un sujet très important et doit être pris en compte dans la planification de l'avenir. Les projets développés par la Banque mondiale apportent plus de soutien dans l'industrie agroalimentaire.

Dr M. EL JAZIRI, chef à l'Institut marocain des sciences et technologies des aliments et de l'agroalimentaire (IMTA). Ancien élève de l'Institut National de l'Aviculture de l'Université Agroalimentaire et Veterinaire Hassan II à Rabat. Directeur adjoint du Institut National d'Hygiène du Maroc.

Recyclage et valorisation des déchets de l'industrie avicole

Le secteur de santé publique a besoin d'une bonne gouvernance et d'une organisation impliquant un niveau central. En effet, le secteur de santé publique doit faire face à une augmentation continue des maladies chroniques et de l'âge moyen de la population. L'Institut National de Santé Publique (INSP) a été créé en 1995 avec un objectif principal et prioritaire : le plus à court terme d'améliorer la situation de santé publique dans le pays pour assurer une meilleure sécurité sociale et éducative. Ses principales missions sont de prévenir et de traiter les maladies chroniques et de promouvoir la santé publique en œuvrant dans les recherches et l'enseignement. L'INSP a également pour objectif de développer et renforcer les capacités de recherche et de formation dans les domaines de la santé publique et de la sécurité sociale.

Dr M. EL JAZIRI, chef à l'Institut marocain des sciences et technologies des aliments et de l'agroalimentaire (IMTA). Ancien élève de l'Institut National de l'Aviculture de l'Université Agroalimentaire et Veterinaire Hassan II à Rabat. Directeur adjoint du Institut National d'Hygiène, l'Institut Pasteur de Dakar, membre de la Task Force sur les Maladies tropicales et de l'Organisation mondiale de la Santé (OMS) et de l'Institut Pasteur de Paris. Docteur en médecine et en sciences de l'information et de la communication. Docteur en médecine et de l'information publique et de l'éducation par exemple à l'Institut de la science et de l'information de l'ONU à Genève pour la sécurité sanitaire des Aliments (WHO) en 2009.
